Therapy ages 4+ · Testing ages 6+ · This-week openings

Therapy and testing partners for your patients—you keep meds management

When patients on your panel need outpatient therapy or ADHD/autism/learning assessments, Joy Mental Health Group adds capacity near Macomb Community College / Macomb County—without taking over prescribing. You keep medication management; we take therapy and testing, with this-week openings.

NOW ACCEPTING **This-week clinician openings.** Our team of 20+ clinicians—including 6 assessment specialists—means therapy and psychological testing referrals can move quickly, so your patients aren't left waiting for the next step.

WHY PSYCHIATRISTS REFER

- You keep medication management—Joy is the therapy and testing partner, not a prescribing takeover
- Outpatient therapy for ages 4+ plus ADHD, autism, learning, and accommodation assessments (ages 6+)
- Clear provider referral path (portal, fax, or phone) with responsive intake coordination
- Local in-person care at our Macomb office near Macomb Community College / Macomb County, with telehealth as available

WHO WE SUPPORT

- Children, adolescents, and adults already on your medication panel
- Patients who need therapy alongside meds—or formal testing for ADHD, autism, or learning questions
- Overflow when therapy or assessment waits are long in your network
- Clinical leadership by Adam Joy, PsyD

Complementary care—your prescribing stays with you.

INSURANCE **We accept BCBS and other major commercial insurance.**
