When students need more support than school alone can provide

Counselors, social workers, and administrators see students struggling with anxiety, mood, attention, trauma, or family stressors that show up in the classroom. Joy Mental Health Group offers outpatient therapy for children age 4 and up, plus psychological assessments (ADHD, autism, test accommodations, and more) and medication management (telehealth only) for ages 6 and up—so families have a clear place to turn.

NOW ACCEPTING **Immediate clinician availability.** Our team of 20+ clinicians brings a variety of expertise—including 6 who specialize in assessment—so people can get seen quickly. Therapists and medication providers are ready for new referrals without a long wait.
